Under the Climate+ strategic direction, Textile Exchange will be the driving force for urgent climate action with a goal of **45% reduction in greenhouse gas emissions within fiber and raw material production**

The + in Climate+ represents the interconnected pillars that constitute Climate; water, biodiversity, and soil health.

The + also represents partnership - the collaborative mentality needed to accomplish this goal.

Achieving the 2030 Strategy: The Climate+ goal will require strong partnerships to accelerate the adoption of existing tools as well as enable disruptive innovation around new business models and zero-carbon materials.
