Introduction

About the Standards Claims Policy

The purpose of this document is to provide companies with clear guidelines for making claims and communicating about Textile Exchange Standards. The rules governing Textile Exchange Standard certification are defined by the scope, assurance, and chain of custody requirements for each of the Textile Exchange Standards. For technical details on these issues, please refer to the respective Standard.

All claims shall always conform with the language requirements detailed in this policy and shall be true, accurate, and not misleading.

Other statements about or in reference to the Standards, such as policy statements, media, or academic use, fall outside the scope of this policy. Use of the Textile Exchange logo or Textile Exchange membership logo is not included within the scope of this policy; contact Communications@TextileExchange.org about using the Textile Exchange logo and Membership@TextileExchange.org for more information about membership logo use and claims.

Any organization planning to use Textile Exchange Standards in any type of marketing or communication should carefully read this document and ensure that all relevant staff are informed of its content. Certification bodies (CBs) are responsible for verifying that all assured claims meet the requirements of this document.

Relevant stakeholders, including licensed claim makers, will be informed of substantive changes to this policy via public notice on our website and by direct written communication when possible.

About Textile Exchange

Textile Exchange is a global nonprofit that creates leaders in the sustainable fiber and materials industry. The organization develops, manages, and promotes a suite of leading industry standards as well as collects and publishes vital industry data and insights that enable brands and retailers to measure, manage, and track their use of preferred fiber and materials.

With a membership that represents leading brands, retailers, and suppliers, Textile Exchange has, for years, been positively impacting climate through accelerating the use of preferred fibers across the global textile industry and is now making it an imperative goal through its 2030 Strategy: Climate+. Under the Climate+ strategic direction, Textile Exchange will be the driving force for urgent climate action with a goal of 45% reduced CO2 emissions from textile fiber and material production by 2030.
Logo Use Authorization

The Standards logos are proprietary and for authorized use and/or display only; all logo use shall conform with the guidelines described in TE-302 Standards Logo Use Specifications.

The Textile Exchange Standards logos are the intellectual property of Textile Exchange, who reserves all rights in relation thereto. Unauthorized display, copy, and/or use of any Standard logo without prior authorization, is strictly prohibited.

Any organization that uses a Standards logo shall do so in agreement with logo use terms and conditions through Textile Exchange (in the case of registering commitments – see Section A) or a licensing agreement with a certification body (CB), as applicable.

Certification bodies with a valid licensing contract with Textile Exchange will sublicense the right to use the applicable Standard logo(s) upon request/approval for all assured claims (Section B), in compliance with the requirements in this policy.

Textile Exchange reserves the right to take legal action against any party that uses, displays, and/or copies any Standard logo without prior authorization. Incidents of unlicensed or improper use of any Standards logo(s) will be handled in accordance with ASR-110 Complaints and Feedback Policy and the terms outlined in this document.

Legal Regulations

The guidance in this policy is intended to ensure conformity with Textile Exchange’s integrity controls. This document is not intended as legal guidance, and Textile Exchange does not take any responsibility for the legal implications of its use nor the use of any related claims. All claim makers are responsible to verify that claims comply with the labeling laws of the country(ies) of sale.

Relevant guidance includes (but is not limited to):

EU: Guidance on the application of the Unfair Commercial Practices Directive (environmental claims), 2017
International: ISO 14020, ISO 14021, ISO 14024, ISO 14025
How to Use This Document

This document sets forth the overall requirements for conformity with the Standards Claims Policy and includes five key sections (Commitment Claims, Assured Claims, Agreement-Based Claims, Informational Statements, and Misuse), as well as additional Appendices.

Throughout this document, the following terms are used to indicate requirements, recommendations, permissions, or capabilities:

1. “shall” indicates a requirement
2. “should” indicates a recommendation
3. “may” indicates a permission
4. “can” indicates a possibility or capability

The abbreviation “e.g.” is used to indicate an example, while the abbreviation “i.e.” is used to provide clarification of meaning.

In the allowed language for each type of claim:

- The words shown within brackets “[xxx]” provide a description of the required language rather than the exact language to be used in a claim.
- Brackets with a slash between two or more descriptions “[xxx/xxx]” indicate a choice between multiple options for the required language.

Example: “[Standard Name]” may be replaced by “Responsible Wool Standard” and “[organically grown material/recycled material/wool/down/mohair/alpaca fiber]” may be replaced by “wool.”

- The words shown in parentheses “(xxx)” indicate optional language which may be used.
- Parentheses with a slash between two or more descriptions “(xxx/xxx)” indicate a choice between multiple options for the optional language.

Example: If you see “(This product/This component)”, you may choose to omit the words altogether; or you may choose to use “This product” or “This component” depending on your needs.

- If the term or statement in between either the brackets or parenthesis is capitalized, it is implied that the term or statement used shall also be capitalized.

All references to the Standard(s) may use the full name of the standard, the acronym, or both, e.g. “Responsible Wool Standard” or “RWS” or “Responsible Wool Standard (RWS).”
The general eligibility requirements for each type of claim are summarized in the table below. A full description of each claim category and type, detailed eligibility requirements, and a list of allowed language follows in each section. Applicable registration or approval requirements are detailed at the end of each section.

Section A - Commitment Claims

Commitment claims center around registered commitments to Textile Exchange Standards, as well as progress toward those commitments and associated goals. Raw material suppliers, brands, and retailers are all eligible to make commitments.

A corporate commitment is made by an organization that is working towards building a supply chain that is fully certified to a Textile Exchange Standard(s). In many cases, committed organizations are not yet selling fully certified products and therefore do not yet qualify to make an assured product-related claim (as outlined in Section B3). Companies that have already met or made progress toward their targets may make progress claims.

Organizations making commitments to one or more Standard are responsible for outlining clear goals and timelines for achieving them, with accountability to Textile Exchange through annual reporting on progress.

A1. General Guidelines – Corporate Commitment Claims

A1.1 Corporate commitment claims shall only be made by organizations who have registered a public commitment to a relevant Textile Exchange Standard(s) and have set clear goals and realistic timelines for achieving them.

NOTE: Commitments may be registered through Textile Exchange’s online commitment registration form.

A1.2 Corporate commitment claims shall not appear on or in reference to any specific certified product. For making product-related claim, see B3. General Guidelines – Product-Related Claims.

A1.3 Corporate commitment claims should appear in conjunction with a relevant informational statement (see Section D – Informational Statements).

A1.4 Corporate commitment claims may be accompanied by the applicable Standard logo(s) and logo use shall conform with TE-302 Standards Logo Use Specifications.

A1.4.1 Logo use shall only be permitted upon registration of a commitment through Textile Exchange’s online commitment registration form.

A1.5 Corporate commitment claims shall not be made with reference to the Content Claim Standard (CCS).

A2. Allowed Language – Corporate Commitment Claims

A2.1 Corporate commitment claims shall be limited to the following language:
NOTE: Corporate commitment claims may be minimally adjusted, provided the meaning is not lost.

A2.1.1 [We/Organization Name] commit(s) to source [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].

A2.1.2 [We/Organization Name] commit(s) to achieve [Standard Name] certification at [x%] of our [production facility type] by [specific timeframe].

A2.1.3 [We are/Organization Name is] committed to sourcing [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].

A2.1.4 [We are/Organization Name is] committed to achieving [Standard Name] certification at [x%] of our [production facility type] by [specific timeframe].

A2.1.5 [We are/Organization Name is] committed to sourcing [x%] of [product category] by [revenue/SKU/unit] from certified sources by [specific timeframe].

NOTE: “revenue/SKU/unit” refers to how the percentage of products will be calculated. See example in Appendix B.

A3. General Guidelines – Progress Claims

A3.1 Progress claims may be made by organizations who have met all corporate commitment claims requirements (see A1.1-A1.5).

A3.2 Certified organizations may make progress claims provided they are not related to specific certified products.

A3.2.1 Claims about progress towards a committed percentage of certified products are considered assured claims and shall be approved by a certification body.

A3.3 Progress claims shall be quantifiable and verifiable through publicly available information that is easily accessible in connection with the progress claim itself.

A3.4 Progress claims shall not be made with reference to the Content Claim Standard (CCS).
A4. Allowed Language – Progress Claims

A4.1 Progress claims shall be limited to the following language:

NOTE: Progress claims may be minimally adjusted, provided the meaning is not lost.

A4.1.1 [We have/Organization Name has] achieved [x%] of our goal to source [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].

A4.1.2 [We are/Organization Name is] [quantifiable and verifiable progress indicator] to our goal of sourcing [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].

A4.1.3 [x%/All] of our [supplier facility type] are certified to the [Standard Name].

A5. Commitment Registration and Claim Making Process

A5.1 Prior to making commitment claims, all corporate commitments and progress updates shall be registered through Textile Exchange’s online registration form.

A5.1.1 Progress against commitments shall be provided to Textile Exchange on an annual basis, at a minimum.

A5.2 Logos shall be distributed only to those who meet the qualifications outlined in Section A, have registered their commitments, and agreed to the logo use terms.

A5.3 Commitment claims shall only be made in conformity with the full requirements of this policy. If, at any time, an approved claim falls out of conformity with the requirements of this policy, the claim maker shall cease using the claim.
Section B - Assured Claims

Assured claims are reserved only for organizations or products that have met the requirements of an assurance process set forth in the Textile Exchange Standard(s). As such, products or businesses making assured claims must be certified according to the applicable Standard in order to make claims in this category and approval must be obtained by a certification body. Examples of assured claims can be found in Appendix C.

B1. General Guidelines – Claims by Certified Organizations (non-product related)

B1.1 Claims by certified organizations shall only be made by organizations that hold a valid scope certificate to the applicable Standard(s). No other organization may make the claims in this category.

B1.2 Claims by certified organizations require approval by an authorized certification body, as per CCS-102 CCS Certification Procedures and as described in B5. Assured Claims Approval Process.

B1.3 Claims by certified organizations made at, near, or relative to the point of sale should include the following disclaimer:

“[We are/Organization Name is] is [Standard Name] certified. Only the products which are covered by a valid transaction certificate are [Standard Name] certified.”

B1.4 Claims by certified organizations may be made in marketing materials (e.g. email signatures) and shall include organization's license number and the certification body name.

B1.4.1 For online claims or use of the Standard logo, the associated certification information (license number and certification body name) may appear on another webpage hyperlinked from the logo.

B1.5 Claims by certified organizations should appear in conjunction with a relevant informational statement (see Section D – Informational Statements).

B1.6 Claims by certified organizations shall be accompanied by the applicable Standard logo(s) and logo use shall conform with TE-302 Standards Logo Use Specifications.

B1.7 Claims by certified organizations shall not be made with reference to the Content Claim Standard (CCS).
B2. Allowed Language – Claims by Certified Organizations

B2.1 Claims by certified organizations shall be limited to the following language only:

B2.1.1 [%/All] of our [organically grown material/recycled material/down/wool/mohair/alpaca fiber] is (independently) certified to the [Standard Name].

B2.1.2 Our [material] supply chain is certified to the [Standard Name].

B2.1.3 [We are/Organization Name is] certified to the [Standard Name], (which [Insert relevant informational statement]).

B2.1.4 [We are/Organization Name is] certified to the [Standard Name], which certifies [organically grown material/recycled material/down/wool/mohair/alpaca fiber] from the source to final product.

B2.1.5 This year, [we have/Organization Name has] met [verifiable progress indicator] [toward/of] our goal of achieving [Standard Name] certification of [x%] of our [product category] by [Specific timeframe].

B3. General Guidelines – Product-Related Claims

Product-related claims are used to indicate that a product, category of products, or product component are certified or contain certified content. Because these claims are tied to an assurance process, special care shall be taken to ensure they are true, accurate, and not misleading. Eligibility to make product-related claims depends upon conformity to the relevant Standard.

The guidelines for product-related claims listed below apply to both business-to-business (B2B) and business-to-consumer (B2C)/consumer-facing final products.

Eligibility Requirements

B3.1 Product-related claims shall only be made by organizations and products that meet the eligibility criteria outlined below:

B3.1.1 The product or claimed component meets the following minimum content (calculated by weight) and blending/mixing requirements.

NOTE: Content calculations may exclude non-certified trims and accessories.
### Standards Claims Policy, V1.2

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

**NOTE:** An RDS or RAF product that contains recycled fiber may only qualify for labeling to the Standard if the product contains at least 5% RDS down/RWS wool/RMS mohair/RAS alpaca fiber and 100% of the fiber in the product is certified to either RDS/RAF, RCS, or GRS.

**B3.1.2** For final product B2C claims, the product is certified up to the brand.

a. In cases where a retailer sells products under their own brand or private label, they are considered a brand per the definition of a “brand” in *TE-101 Terms and Definitions for Textile Exchange Standards and Related Documents*, and certification is required when making product-related claims.
b. The brand – as required per **CCS-101 Content Claim Standard (CCS)** – holds a valid scope certificate that includes the correct product category(ies).

**B3.2** Business-to-business (B2B) product-related claims may be made and are exempted from the eligibility criteria in **B3.1.1 - B3.1.3**, provided the following conditions are met:

a. The product meets the minimum content requirements for certification (outlined in the applicable Standard document), and

b. The company selling the product – as required per **CCS-101 Content Claim Standard (CCS)** – holds a valid scope certificate that includes the correct product category(ies).

**NOTE:** B2B product-related claims are not required to list the percentage of certified material in the claim (i.e. requirement **B3.13** does not apply).

**B3.3** All product-related claims (B2B and B2C) and any accompanying artwork require approval by a certification body as described in **B5. Assured Claims Approval Process**.

**General Requirements**

**B3.4** Product-related claims may be made on-product (e.g. hangtags/swing tags, sewn-in labels, product packaging) or off-product (e.g. e-commerce/online product page, social media, magazine/online advertisement).

**B3.5** Product-related claims that appear on-product, such as on a label or statement printed, heat-transferred, affixed, or otherwise physically attached or applied to the product or its packaging, shall only be done so by certified organizations.

**B3.5.1** Certified brands may attach hangtags/labels or direct certified suppliers may attach hangtags/labels with the brand’s license number and other required certification information.

**B3.6** If the applicable Standard logo is already on the product, then any additional information which does not refer to or cover up information about the standard is outside of the scope of the certification.

**B3.7** Product-related claims may be made about a component of a product (e.g. outer shell of a jacket), provided the component meets all applicable requirements for both certification as outlined in the applicable Standard document and product-related claims as outlined in **Section B3** of this policy.
NOTE: In the case of tampons, the core (i.e. the absorbent piece either encased in an applicator or on its own) and the applicator may be claimed as separate certified components. Please see ASR-104 Policy for Transaction Certificates for more details on component claims and how these are to appear on the associated transaction certificate.

B3.8 When space allows, a product-related claim should appear in conjunction with a relevant informational statement (see Section D – Informational Statements).

B3.8.1 Otherwise, a URL or QR code directing to the current version of the Standard or the Standard’s landing page should appear in conjunction with the claim.

B3.9 Product-related claims shall not be made with reference to the Content Claim Standard (CCS).

Certification Information

B3.10 All product-related claims shall include:

- a. The claim maker’s license number, as it appears on their valid scope certificate (SC).
- b. The name of the claim maker’s responsible certification body.
- c. The percentage of certified content, per the requirements in B3.13.

NOTE 1: Claim makers who are non-certified retailers must use the license number and certification body name of their certified brand supplier.

NOTE 2: Only one license number may be included in product-related claims. The license number for any upstream suppliers may not be included.

Logo Use

B3.11 All product-related claims shall appear with the relevant Standard logo and logo use shall conform with TE-302 Standards Logo Use Specifications.

B3.11.1 When the Standard logo is unable to appear near the text portion of a product-related claim (i.e. claim language and other required certification information), such as in the cases of e-commerce product webpages or sewn-in labels, the Standard logo may be separated from the rest of the product-related claim, provided it appears elsewhere on the product, hangtag, listing, or on another webpage, and meets all other requirements described in this section. Likewise, when the text
Standards Claims Policy, V1.2

portion of the claim cannot be near a logo, it should appear elsewhere on the product or linked to another webpage.

B3.12 For use of a Standard logo at physical point of sale (e.g. in-store signage, a 3-D sculpture of the RDS logo in a retail store), in addition to conforming with TE-302 Standards Logo Use Specifications, the following conditions shall apply:

B3.12.1 The logo shall only be placed directly above or within visible distance to the certified products.

B3.12.2 The logo shall be accompanied by additional signage (easily visible/legible to consumers) which includes the following:

a. A statement that indicates only products with the Standard's label and certification information are certified (e.g. “Look for RDS certified products” or “Look for the RDS label”).

b. All required certification information, as per B3.10.

Certified Content Percentage

B3.13 Product-related claims shall include the percentage of certified material in the product or component. The percentage shall be calculated by weight of the full product or applicable certified component and may exclude non-certified trims or accessories.

NOTE 1: In most cases, the weight of trims and accessories (e.g. buttons, lace, string on a tampon) shall be excluded from calculations, unless they are also certified to the applicable Standard.

NOTE 2: A sanitary product such as a pantyliner is a single product which does not have any accessories/trim, so any certification claim needs to cover the entire product. A release sheet or wrapper would both be considered packaging (and thus not part of the product).

B3.13.1 For RDS, the percent certified content may be omitted provided the applicable component (i.e. the fill) is 100% RDS certified down.

a. The percentage shall be specified for blended fills (e.g. 50% RDS down, 50% synthetic fill).

B3.13.2 For RAF Standards (RWS, RMS, and RAS), the percentage of certified content may be omitted provided that the applicable product or component is made of 100% of a single certified animal fiber (e.g. 100% RWS wool, or 100% RMS mohair).

B3.13.3 For RCS, GRS, and OCS, the percent certified content shall always appear in the claim.
B3.13.4 For RCS, GRS, and OCS, labels may reference a minimum percentage of claimed content (e.g. "at least 10% OCS organically grown cotton") in order to simplify communications and label designs. TCs shall include the exact percentage composition for the specific batch of product.

B3.13.5 For RCS, GRS, and OCS, where multiple material types are certified, each material shall be separately listed with each percentage (e.g. “Made with 48% organically grown cotton and 32% organically grown wool”).

Multiple Certified Materials/Combined Claims

B3.14 Product-specific claims to two or more Standards (including non-Textile Exchange Standards) which address the same material attribute (e.g. GRS and RCS) may only be made for the same product provided:

a. The claims relate to separate components of the product, or

b. The claims are clearly distinct from each other (e.g. properly distanced so that they cannot be confused as being connected or related to each other in any way)

B3.14.2 Claims to two or more different RAF Standards may be combined, as these standards do not address the same material attribute (e.g. RWS addresses wool, RAS addresses alpaca fiber).

NOTE 1: This does not apply to standards which do not address material sourcing (e.g. chemical use standards).

NOTE 2: When making a Textile Exchange standard claims near a non-Textile Exchange standard, always check the claims guidance or policies of the scheme owner, as combining claims may not be allowed.

Multi-Piece Product Set Labeling

B3.15 When labeling a set of products which are packaged together where one piece is below the 95% threshold for RCS 100 or OCS 100 (as applicable):

B3.15.1 Each piece shall be labeled separately with the appropriate label and percentage details; or
Standards Claims Policy, V1.2

B3.15.2 The entire set shall be labeled as RCS Blended or OCS Blended (as applicable) and the percentages for each piece shall be included; or

B3.15.3 The entire set shall be labeled as RCS Blended or OCS Blended (as applicable) and, as per B3.13.4, the labels may reference a minimum percentage of claimed content (e.g. "at least 10% OCS organically grown cotton") in order to simplify communications and label designs; and

B3.15.4 In all cases, the transaction certificate(s) shall include the exact percentage composition for the specific batch(es) of product(s).

B4. Allowed Language – Product-Related Claims

B4.1 For legal reasons, product-related claims for all standards shall refer to the generic material name and shall not contain tradenames, names of other standards, programs and initiatives, or names of breeds, varieties, and species. For more details, see ASR-213 Material, Processes, and Products Classification.

B4.2 Product-related claims for all standards shall be limited to the following language options only:

NOTE: For B2B product-related claims, any of the allowed language in this section may be used. As per the note under B3.2, listing the percentage is not required.

B4.2.1 (This product/This component) [contains/is] [x%] [Standard Name] certified [organically grown material/recycled material/down/wool/mohair/alpaca fiber], certified by [CB name] [License Number].

B4.2.2 [x%] [Standard Name] [organically grown material/recycled material/down/wool/mohair/alpaca fiber], certified by [CB name] [License Number].

B4.2.3 For products certified to the RDS, RWS, RMS, or RAS only, where all animal fibers are certified to one of these standards:

(This product is/This component is) [RDS/RWS/RMS/RAS] certified by [CB name] [License Number].

B4.3 Products that qualify with multiple standards may repeat only the percentage, Standard name, and material.
Example: “Contains 50% RWS wool and 20% RMS mohair, certified by ABC Cert ABC1234567.”

**B4.4** In addition to the allowed language in **B4.2**, a company may choose to also include the Standard acronym in the product name. This is allowed in the following format only:

**B4.4.1** [OCS/RCS/GRS/RDS/RWS/RMS/RAS] [Product Name]

Example: “RWS Sweater”

**B4.5** As an alternative to B4.4 above, the following formats are allowed for RDS, RWS, and RMS products only:

**B4.5.1** [Product name] in [Responsible Down/Wool/Mohair/Alpaca Fiber]

Example: “Jacket in Responsible Down”

**B4.5.2** [Product name] in [RDS Down/RWS Wool/RMS Mohair/RAS Alpaca Fiber]

Example: “Scarf in RMS Mohair”

**B4.6** In the cases described in B4.4 and B4.5 above, a full product-related claim (as outlined in B4.2) shall be included alongside any public facing use of the name in a visible place. The claim shall be present on the product specific page for ecommerce websites.

**B4.7** Any organic crop name that legally changes its name after first processing occurs shall no longer be referred to by its crop name when certified to the OCS and making claims (e.g. bamboo processed into a fabric is legally "viscose" in most countries). OCS labeling in these cases shall be written as:

**B4.7.1** Made with/contains [x%] OCS certified [legal name], derived from organically grown [crop name].

Example: "Contains 100% OCS certified viscose, derived from organically grown bamboo”

**B5. Assured Claims Approval Process**

**B5.1** Prior to use, all assured claims require approval by the claim maker’s certification body through a formal claim approval application, which grants use of the claim. All claim approvals will be reported to Textile Exchange.
NOTE 1: The claim approval application form may only be obtained through an approved certification body.

NOTE 2: Multiple assured claims may be submitted through a single claim approval application.

NOTE 3: Certification bodies approve claims in accordance with the procedure outlined in ASR-101 Accreditation and Certification Procedures and CCS-102 CCS Certification Procedures.

NOTE 4: Claim makers who are non-certified retailers must request approval from the certification body of their certified brand supplier.

B5.2 All unique artwork and allowed text claims shall be included as part of a formal claim approval application.

B5.3 Artwork may be submitted in the form of a controlled template, provided only the certification information (certification body and license number), product name, claimed material, or content percentage may be edited.

B5.3.1 The language and graphics should be set with blanks for license number, percentage, and material type, if relevant.

B5.3.2 The template shall be approved by the claim maker's certification body (see note 4 under B5.1 for retailers).

B5.4 Approved artwork that has not changed since the original claim approval application was submitted to the certification body will be reviewed on an annual basis during the audit process. If the artwork has changed, it shall be resubmitted for approval at the time of change.

B5.5 Assured claims shall only be made in locations and on products that meet the full requirements of this policy. Extra care shall be taken with assured claims to ensure they are removed from ineligible locations and/or products.

B5.6 If, at any time, an approved claim falls out of conformity with the requirements of this policy, the claim maker shall cease using the claim.
Section C - Agreement-Based Claims

Textile Exchange may grant permission for additional standards related claims in the context of written agreements. Organizations in this category may include international working group members, accreditation bodies, certification bodies, data intermediaries, or brands who have financially supported a standards-related initiative.

C1. General Guidelines – Agreement-Based Claims

C1.1 Agreement-based claims shall only be made by organizations who have a written agreement with Textile Exchange (non-certificate).

C1.2 All agreement-based claims should appear with the relevant Standard logo and logo use shall conform with TE-302 Standards Logo Use Specifications.

C1.3 The URL for the Standard or TextileExchange.org/Standards shall be adjacent to the claim.

C1.3.1 When the logo is used in digital publications, the URL may be embedded in the logo.

C1.4 Agreement-based claims should appear in conjunction with a relevant informational statement (see Section D – Informational Statements).

C2. Allowed Language – Agreement-Based Claims

The following groups already have confirmed agreements with Textile Exchange. Please contact Standards@TextileExchange.org if you would like to initiate a new agreement and develop claims about your work with us.

International Working Group Members

C2.1 International working group members may use the following language only:

C2.1.1 [We are/Organization Name is] a member of the international working group, responsible for the [development/revision] of the [Standard Name]. Learn more at [URL]. (We are committed to the [relevant goals] of the [Standard Name]).

Accreditation Bodies

C2.2 Authorized accreditation bodies may use the following language only:
Standards Claims Policy, V1.2

C2.2.1 [We are/Organization Name is] an authorized accreditation body for the [Standard Name(s)]. Learn more at [URL].

Certification Bodies

C2.3 Accredited certification bodies may use the following language only:

C2.3.1 [We are/Organization Name is] an accredited certification body for the [Standard Name(s)]. Learn more at [URL].

C2.3.2 [We are/Organization Name is] accredited to assess conformity with the [Standard Name(s)]. Learn more at [URL].

C2.4 Certification bodies who have a licensing agreement and grace period with Textile Exchange but are not yet accredited may use the following language only:

C2.4.1 [We are/Organization Name is] in the process of becoming an accredited certification body for the [Standard Name(s)]. Learn more at [URL].

C2.5 Applicant certification bodies who do not yet have a licensing agreement with Textile Exchange shall not make any claims about Textile Exchange Standards.

Data Intermediaries

C2.6 Data intermediaries shall have a written agreement with or express consent from Textile Exchange prior to replicating any standards related data from Textile Exchange’s website. If you would like permission to use Textile Exchange’s data, please contact Data@TextileExchange.org.

C2.7 Specific permission for language and relevant logos or images shall be granted in the agreement.
Section D - Informational Statements

Informational statements are ready to use messages that describe a relevant Standard and provide additional context to claims made from other categories.

D1. General Guidelines – Informational Statements

D1.1 Informational statements may be made by any organization, provided they have satisfied the requirements and/or obtained approval in at least one other claim category first.

D1.2 Informational statements should be used in conjunction with claims made in all other claim categories.

D1.3 Informational statements shall not be used where they may be interpreted as confirmation of certification of an organization or product, unless accompanying an assured claim.

D1.4 Informational statements may be accompanied by the applicable Standard logo(s) and logo use shall conform with TE-302 Standards Logo Use Specifications.

D2. Allowed Language – Informational Statements

D2.1 Informational statements shall be limited to the following language or any combination of the following language:

NOTE: Companies wishing to expand on these informational statements or alter them to fit their marketing style in non-product-related uses only may seek approval from the Standards Claims Team before publishing by sending proposed language in English to Claims@TextileExchange.org.

Global Recycled Standard (GRS)

D2.1.1 The Global Recycled Standard (GRS) verifies (the percentage of) recycled [content/material] and tracks it from the [source/recycler] to the final product.

D2.1.2 Products certified to the Global Recycled Standard (GRS) contain recycled [content/material] that has been (independently) verified at each stage of the supply chain, from the [source/recycler] to the final product. In addition, certified organizations have met social, environmental, and chemical requirements (at each stage of the supply chain).
D2.1.3  The purchase of Global Recycled Standard (GRS) certified products demonstrates demand for recycled content and best processing practices in the supply chain.

Recycled Claim Standard (RCS)

D2.1.4  The Recycled Claim Standard (RCS) verifies (the percentage of) recycled [content/material] and tracks it from the [source/recycler] to the final product.

D2.1.5  Products certified to the Recycled Claim Standard (RCS) contain recycled [content/material] that has been (independently) verified at each stage of the supply chain, from the [source/recycler] to the final product.

D2.1.6  The purchase of Recycled Claim Standard (RCS) certified products demonstrates demand for recycled [content/materials].

D2.1.7  Products certified to the Recycled Claim Standard 100 (RCS 100) contain at least 95% certified recycled [content/material].

D2.1.8  Products certified to the Recycled Claim Standard Blended (RCS Blended) contain between 5-94% certified recycled [content/material].

Organic Content Standard (OCS)

D2.1.9  The Organic Content Standard (OCS) verifies (the percentage of) organically grown [content/material] and tracks it from source to final product.

D2.1.10 Products certified to the Organic Content Standard (OCS) contain organically grown [content/material] that has been (independently) verified at each stage of the supply chain, from source to final product.

D2.1.11 The purchase of Organic Content Standard (OCS) certified products demonstrates demand for organic agriculture.

D2.1.12 Products certified to the Organic Content Standard 100 (OCS 100) contain at least 95% certified organically grown [content/material].

D2.1.13 Products certified to the Organic Content Standard Blended (OCS Blended) products contain between 5-94% certified organically grown [content/material].
D2.1.14 The below statement may be included as an addition to any of the above statements related to the OCS:

a. Organic cotton is produced and certified to organic agricultural standards, which require practices to sustain ecosystems.

Responsible Down Standard (RDS)

D2.1.15 The Responsible Down Standard (RDS) (independently) certifies down and feathers against animal welfare requirements and tracks it from farm to final product.

D2.1.16 Products certified to the Responsible Down Standard (RDS) contain down or feathers from farms certified to animal welfare requirements.

D2.1.17 The Responsible Down Standard (RDS) describes and (independently) certifies animal welfare practices in down and feather production and tracks the certified [down and feathers/material(s)] from farm to final product.

D2.1.18 The Responsible Down Standard (RDS) requires animal welfare practices to be in place at duck and goose farms in the down and feather supply chain.

D2.1.19 The purchase of Responsible Down Standard (RDS) certified products demonstrates demand for (better) animal welfare practices in the down and feather supply chain.

Responsible Animal Fibers (RAF): RWS, RMS, RAS

D2.1.20 The [Responsible Wool Standard (RWS)/Responsible Mohair Standard (RMS)/Responsible Alpaca Standard (RAS)] verifies [wool/mohair/alpaca fiber] animal welfare and land management requirements and tracks it from farm to final product.

D2.1.21 Products certified to the [Responsible Wool Standard (RWS)/Responsible Mohair Standard (RMS)/Responsible Alpaca Standard (RAS)] contain [wool/mohair/alpaca fiber] from farms (independently) certified to animal welfare and land management requirements.

D2.1.22 The [Responsible Wool Standard (RWS)/Responsible Mohair Standard (RMS)/Responsible Alpaca Standard (RAS)] describes and (independently) certifies animal welfare and land management.
practices in [wool/mohair/alpaca fiber] production and tracks the certified material from farm to final product.

D2.1.23 The [Responsible Wool Standard (RWS)/Responsible Mohair Standard (RMS)/Responsible Alpaca Standard (RAS)] requires animal welfare and (responsible) land management practices to be in place at the [sheep/goat/alpaca] farm.

D2.1.24 The purchase of [Responsible Wool Standard (RWS)/Responsible Mohair Standard (RMS)/Responsible Alpaca Standard (RAS)] certified products demonstrates demand for (better) animal welfare practices and (responsible) land management in the [wool/mohair/alpaca fiber] supply chain.
Section E - Monitoring and Misuse

E1. Monitoring and Surveillance

E1.1 Textile Exchange will determine the appropriate level of surveillance for the various allowed claims described in this policy. In addition to the data management system that hosts records of all licensed claims, as part of its monitoring activities, Textile Exchange may use product tracebacks, routine or risk-based market surveillance, product testing, product tagging, and web-crawlers to surveil the market for improper or unlicensed claims.

E1.2 Reports on potential improper or unlicensed use of Textile Exchange claims may be submitted through our Complaint Form, or by sending an email to Assurance@TextileExchange.org.

E2. Misuse

E2.1 In instances where a claim does not conform with this policy, Textile Exchange reserves the right to deem a claim is improperly used and thus considered “misuse.”

E2.2 If Textile Exchange becomes aware of an improper or unlicensed use of its intellectual property, Textile Exchange will attempt to engage with the claim maker and will offer a 30-day window from the date of first notice to correct or remove the claim.

E2.3 If the misuse is not remedied within 30 days and/or upon a second instance of misuse, Textile Exchange may take applicable actions as per any in-force licensing agreement and may pursue further applicable action up to and including legal proceedings and/or action with the certification body, which may result in withdrawal of certification.
Appendix A – Definitions

Refer to TE-101 Terms and Definitions for Textile Exchange Standards and Related Documents for definitions of terms used in these procedures. Key definitions are included below. Defined terms are shown in italics in the first usage in this document, and in some other uses for clarity.

Assured claim: Assured claims are those that result from an assurance process against a Textile Exchange Standard and refer to a product, process, business, or service that has been certified to be in conformity with such Standard.

Brand: An organization that controls the design, development, and purchase of final products for sale under their own name or private label. Brands may sell to wholesalers, retailers, or directly to consumers. This does not include organizations who sell a branded intermediate product for use in further processing steps.

Certified organization: An organization which holds a scope certificate.

Claim: An oral, written, implied representation, statement, advertising, or other form of communication that is presented to the public or buyer that relates to the presence of a claimed material in the content of a product.

Claim approval: Required authorization for use of a claim as granted by a certification body upon submission of a formal request. Prior to the approval being granted, a review of the text claim and associated artwork is done.

Claim maker: Any party that wishes to make a claim about a Standards system. Normally this is a business in the supply chain but also includes other parties that wish to make a claim about a Standard.

Claimed material: The specific material that is being verified by the Content Claim Standard or another Standard as a content claim in a product which is sold. A reference to a Standard followed by the word “Material” (e.g. OCS material) refers to material claimed under that Standard.

Component: A uniquely identifiable material that is included or intended to be included as a part of a finished product. Components can be easily identified by consumers on the finished product.

Content: Proportion of a material in a product.

Data intermediary: Any person or organization that replicates data, either publicly or as a service. Textile Exchange does not allow the use of our data by such intermediaries outside of a written agreement.

Organization: A legal entity which is certified to or in the process of becoming certified to a Standard. A scope certificate is held by an organization, and an organization has one or more sites.
Products: The physical goods that result from each stage of production. These may include finished or unfinished goods.

Records: The information in written, visual, or electronic form that documents the activities undertaken by a user to demonstrate accordance with requirements.

Retailer: An organization which sells products to individual consumers. Includes both physical stores and online sales, and may or may not also be the brand. The definition of retailer includes distribution centers which are controlled by the retailer.

Scope certificate (SC): A document issued by the certification body which verifies that an organization is competent to produce and sell specified claimed materials in conformity with a Standard.

Site: Any geographically distinct unit within a certificate scope. Locations which are geographically distinct or have different civic addresses are considered to be separate sites (see exception for farms). Subcontractors are not considered to be sites. The word facility is used in some documents and has the same meaning as site. Includes: farms, processors, offices.

Standard: The relevant Textile Exchange-owned Standard, which may be any of the following: Content Claim Standard (CCS), Organic Content Standard (OCS), Recycled Claim Standard (RCS), Global Recycled Standard (GRS), Responsible Down Standard (RDS), Responsible Wool Standard (RWS), Responsible Mohair Standard (RMS), Responsible Alpaca Standard (RAS) or any other Standard that come under the ownership of Textile Exchange.

Supply chain: The progression of business entities involved in the supply and purchase of materials, goods, or services from raw materials to the final product.

Withdrawal: The revocation of a scope certificate or accreditation due to a specific non-conformity or issue, or at the request of the accredited/certified party. Following a withdrawal of accreditation/certification, a new assessment/audit is required for accreditation/certification to return to an active status.
## Appendix B – Allowed Language Examples

### Corporate Commitment Claims

<table>
<thead>
<tr>
<th>Allowed Language</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>[We/Organization Name] commit(s) to source [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].</td>
<td>Brand ABC commits to source 100% of our down from RDS certified sources by 2023.</td>
</tr>
<tr>
<td>[We/Organization Name] commit(s) to achieve [Standard Name] certification at [x%] of our [production facility type] by [specific timeframe].</td>
<td>Brand ABC commits to achieve RWS certification at 100% of our wool suppliers by 2025.</td>
</tr>
<tr>
<td>[We are/Organization Name is] committed to sourcing [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].</td>
<td>We are committed to sourcing 50% of our polyester from GRS certified sources by 2025.</td>
</tr>
<tr>
<td>[We are/Organization Name is] committed to achieving [Standard Name] certification at [x%] of our [production facility type] by [specific timeframe].</td>
<td>We are committed to achieving OCS certification at 75% of our garment manufacturers by 2025.</td>
</tr>
<tr>
<td>[We are/Organization Name is] committed to sourcing [x%] of our products by [revenue/SKU/unit] from certified sources by [specific timeframe].</td>
<td>We are committed to sourcing 50% of our products by revenue from certified sources by 2025.</td>
</tr>
</tbody>
</table>

### Progress Claims

<table>
<thead>
<tr>
<th>Allowed Language</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>[We have/Organization Name has] achieved [x%] of our goal to source [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].</td>
<td>Brand ABC has achieved 50% of its goal to source 100% of our down from RDS certified sources by 2025.</td>
</tr>
<tr>
<td>[We are/Organization Name is] [quantifiable and verifiable progress indicator] to our goal of sourcing [x%] of our [generic material name] from [Standard Name] certified sources by [specific timeframe].</td>
<td>Brand ABC is halfway to its goal of sourcing 100% of our wool from RWS certified sources by 2025.</td>
</tr>
</tbody>
</table>
[Standard Name] certified sources by [Specific timeframe].

[x%/All] of our [supplier facility type] are certified to the [Standard Name].

100% of our garment manufacturers are certified to the RMS.

Claims by Certified Organizations

**Allowed Language**

[%/All] of our [organically grown material/recycled material/wool/down/mohair] is (independently) certified to the [Standard Name].

Our [material] supply chain is certified to the [Standard Name].

[We are/Organization Name is] certified to the [Standard Name], (which [Insert relevant informational statement]).

[We are/Organization Name is] certified to the [Standard Name], which certifies [generic material name] from the source to final product.

This year, [we have/Organization Name has] met [verifiable progress indicator] toward/of our goal of achieving [Standard Name] certification at [x%] of our [production facility type] by [specific timeframe].

**Product-Related Claims**

**Allowed Language**

(This product/This component) [contains/is] [x%] [Standard Name] certified [organically grown material/recycled material/wool/down/mohair], certified by [CB] [License Number].

**Example**

The product contains 100% RCS certified recycled polyester, certified by ABC Cert 12345678
Standards Claims Policy, V1.2

[50% RMS wool, certified by ABC Cert 12345678.] [x%] [Standard Name] [organically grown material/recycled material/wool/down/mohair], certified by [CB] [License Number].

Agreement-Based Claims

Allowed Language

International Working Group (IWG) Members

[We are/Organization Name is] a member of the international working group, responsible for the [development/revision] of the [Standard Name]. Learn more at [URL]. (We are committed to the [relevant goals] of the [Standard Name]).

Accreditation Bodies

[We are/Organization Name is] an authorized accreditation body for the [Standard Name(s)]. Learn more at [URL].

Certification Bodies

[We are/Organization Name is] an accredited certification body for the [Standard Name(s)]. Learn more at [URL].

[We are/Organization Name is] accredited to assess conformity with the [Standard Name(s)]. Learn more at [URL].

[We are/Organization Name is] in the process of becoming an accredited certification body for the [Standard Name(s)]. Learn more at [URL].

Example

ABC Brand is a member of the international working group, responsible for the development of the Responsible Mohair Standard (RMS). We are committed to the animal welfare goals of the RMS. Learn more at ResponsibleMohair.org.

We are an authorized accreditation body for the RCS and GRS. Learn more at TextileExchange.org/Standards/Recycled.

ABC Cert is an accredited certification body for the RDS. Learn more at ResponsibleDown.org.

We are accredited to assess conformity with the OCS. Learn more at TextileExchange.org/Standard/OCS.

ABC Cert is in the process of becoming an accredited certification body for the RWS and RMS. Learn more at TextileExchange.org/Standards.
Appendix C – Assured Claims Examples

Product-related claim (on-product): GRS

Product-related claim (off-product): RCS
Standards Claims Policy, V1.2

Product-related claim (on-product): RWS

Product-related claim (on-product): OCS

Product-related claim (on-product): RMS
Claim by certified organization: RDS
