Introduction to Membership
Founded in 2002, Textile Exchange is a global non-profit 501(c)3 with more than 700 members representing leading brands, retailers, and suppliers in the textile industry. The organization works to create leaders in the responsible fiber and materials sector by providing learning opportunities, tools, insight, standards, data, measurement, and benchmarking; and by building a community that can collectively accomplish what no individual or company can do alone.
Vision
We envision an enriching global textile industry that protects people and planet by positively impacting climate, soil health, water, and biodiversity.

Mission
Textile Exchange inspires and equips people to accelerate the adoption of preferred materials through clear and actionable guidance. We convene the textile industry to collectively achieve climate reduction goals and holistic positive impacts across fiber and raw material production.
Climate+  

For years, Textile Exchange has promoted practices, standards, and resources that benefit the climate.

Under the Climate+ strategic direction, Textile Exchange will be the driving force for urgent climate action with a goal of **45% reduced CO2 emissions from textile fiber and material production by 2030.**

The + in Climate+ represents the interconnected pillars that constitute Climate; water, biodiversity, and soil health.

The + also represents partnership - the collaborative mentality needed to accomplish this goal.

Achieving the 2030 Strategy: The Climate+ goal will require strong partnerships to accelerate the adoption of existing tools as well as enable disruptive innovation around new business models and zero-carbon materials.

The Value of Membership

Join more than 700 like-minded members in delivering the Climate+ goals.

Textile Exchange empowers its Members to navigate the complexities of the textile industry. Regardless of where you are in your sustainability journey, Textile Exchange Membership will equip you with data, tools, and, most importantly, the community necessary to achieve the 45% GHG reduction goal.

As a global non-profit, our suite of resources focuses on minimizing the harmful impacts of the textile industry and maximizing its positive effects. Since 2002, we have helped establish best practices and fair business models for the entire supply network from farm to retail.

United by our Climate+ Strategy, our members connect, collaborate, and accelerate the rapid adoption of preferred materials for the textile industry.
